## MILLION RED TROOPS REPORTED TRAPPED

### Germany Asserts War With Russia is Virtually Decided

#### GREATEST BATTLE OF ALL TIME IS BELIEVED IN CLIMACTIC STAGE

Adolf Hitler's military steamroller, driving toward Moscow in what the fuhrer described as "the last great, decisive battle of this year," was reported by the Germans today to have broken Russia's power to resist, with 60 to 70 Red army divisions caught in two vast traps west of the Soviet capital.

Normally, 60 to 70 divisions would total approximately 1,000,000 troops, but a Nazi spokesman said some of the shattered Red units consisted "only of some hundreds of men."

Hitler's press release declared that "the Soviet Union is militarily finished," his leadership in chaos, and that the 110-day-old war on the eastern front was all but decided.

Meanwhile, reports circulated in Washington that Panama—whose flag is used by American-owned ships entering belligerent waters—was engulfed in a political upheaval.

Panama City reports said Dr. Arnulfo Arias, president of Panama, had fled.

Secretary of State Cordell Hull, asked if he could confirm reports of a coup d'état in the Central American republic, said he was aware of reports that something was happening there, but as yet had no tangible information.

German claims that Russia was "finished" came on the eighth day of the vast new offensive against Moscow.

The sensational pronouncement, which was not elaborated by any details of specific land gains, came from Dr. Otto Dietrich, arriving in Berlin direct from the fuhrer's eastern front headquarters.

"From the springs of the Volga to the Sea of Azov," he asserted, "remnants of Soviet armies everywhere are in retreat."

The Berlin radio broadcast a Shanghai dispatch quoting "Soviet quarters" as reporting that the Russian government was fleeing Moscow.

Keyed with Nazi claims of triumph, the Germans published a special order of the day issued by Hitler a week ago at the start of the new offensive, declaring:

"Today (Thursday, October 2) begins the last great, decisive battle of this year. It will hit the enemy destructively and with it the instigator of the entire war, England herself."

"For if we crush this opponent, we also remove the last English ally on the continent."

A special high command bulletin, heralded by a fanfare of trumpets over the German radio, declared Russia's battered Red armies had not a single division left fully fit for battle on the entire front.

Dr. Dietrich said between 60 and 70 Russian divisions—900,000 to 1,050,000 troops—were hopelessly bottled up in the Bryansk and Vyazma sectors.

Once their destruction has been completed, he asserted, "the campaign will develop when and how we wish."

To Britain, he added this warning:

"Let the English attempt a landing in Norway, Holland, Belgium or on the French coast and they will learn what reserves we still have."

While the Germans thus proclaimed a climactic turning-point in the world's greatest military campaign, the Russians acknowledged they had withdrawn from Orel, key town 68 miles southeast of Bryansk, on the Moscow-Kharkov railroad, but gave no intimation of impending collapse.

Russian troops were reported resisting strongly north of Orel after a 3-day battle in which they first abandoned the town, recaptured it and finally withdrew again under pressure by numerically superior Nazi forces.

A mid-day Red Army bulletin said Marshal Semenov Timoshenko's forces on the central front were still battling fiercely against the Nazi juggernaut in the Bryansk and Vyazma sectors.

Tass, the official Russian news agency, indicated that Soviet troops still held Vyazma.

Russian civilians were now reported fighting shoulder-to-shoulder with Red Army soldiers to stem the Nazi smash toward Moscow.

A German pilot said snow was falling behind the front lines, spreading a thin layer over the Russian steppes.

London military quarters described the battle as the fiercest (Turn to Page Thirteen)

#### LONDON TAKES A GRAVE VIEW OF DEVELOPMENTS

No Real Hope of Easing Pressure on Their Allies By Reopening a Western Land Front is Found in Reports From Britain

#### DANGEROUS THRUSTS

London, Oct. 9.—(P)—Germany's mighty drive toward the heart of Russia—impelling armies that guard Moscow—was viewed today with mounting concern by the British, who saw no real hope of easing the pressure on their Soviet allies by reopening a western land front.

With supply as the chief means of aid, British and United States missions to Moscow returned to England loaded with data on Russia's needs and pledged to deliver the goods.

Newspaper military commentators took the view that the next few weeks would decide the fate of Russia's main forces, now locked in one of the mightiest battles of history.

Authoritative sources declared the twin drives Adolf Hitler launched northwest and southwest of Moscow in a race with winter had created pockets in which vast Russian forces might be trapped.

British sources heard that the Germans were hurling every land and air weapon in their military (Turn to Page Six)

#### DECREE FORBIDS NEW PROJECTS

Washington, Oct. 9.—(P)—The supply Priorities and Allocations Board issued a sweeping policy today forbidding the start of any public or private construction which would use critical materials essential to the nation's defense or to the public health and safety.

The ruling applied, the SPAE announced said, to power, navigation, and flood control projects, office buildings, post offices, hotels, highways, and even residential construction. Its effect was to suspend such non-essential building for the duration of the emergency, SPAE officials said. (Turn to Page Six)

#### NEWS OF SECRET FLIGHT OF THE PRESIDENT OF PANAMA REVEALED

Panama, Panama, Oct. 9.—President Arnulfo Arias fled the country by airplane at 5:30 a. m. Tuesday in such strict secrecy that his departure was not disclosed until today when a successor was sworn in.

Neither his motives for leaving the country nor events leading up to the sudden development were clear, but the country was quiet.

The supreme court of Panama today swore in Ernesto Taen Guardia, second vice president of Panama, who is reputed to favor collaboration with the United States, as acting head of the government.

#### Interest In Favorite Baby Contest Intensified By Events of the Week

One Common Topic of Conversation Everywhere is the Campaign to Choose Outstanding Tot in Community

#### MERCHANTS PLEASED

It was inevitable from the beginning that an event of such importance as the election of the community's favorite baby would arouse more general and widespread interest than anything that has happened in this section of the state in a decade and events of this week have intensified the campaign now rapidly approaching the half-way mark.

On every side, in stores, homes, offices, at clubs, in the schools and in fact everywhere, the one common topic of conversation and interest revolves around this Favorite Baby Election.

Men and women who have never before lent their efforts to anything even mildly suggestive of a "contest," are becoming thoroughly aroused to the lasting things of value which the election guarantees and are interesting their friends in helping choose the winners.

You could guess that no campaign would be a success without stunts, speeches and your guess would be right. Speeches have been made for scores of favorites. All have been made because someone believed in the outstanding merit of his or her favorite and is doing everything possible to obtain a winning vote total.

Little bonnets and caps are being thrown into the "ring" with strong claims for the wearers. Merchants report business improving and keeping pace with the demand of patrons for vote coupons. (Turn to Page Thirteen)

#### NO SOLUTION TO CONGRESSIONAL APPORTIONMENT

Harrisburg, Oct. 9.—(P)—Seven plans for re-shuffling the state's congressional districts to cut the number from 34 to 33 were studied by a special legislative committee today, but most of the ideas had been considered by the assembly before it deadlocked on the question.

One new proposal was offered by Federal Judge Albert B. Maris of the Third Circuit Court of Appeals who explained in a letter that the subject is a "hobby of mine."

Judge Maris' proposal would reapportion virtually every district on a purely population basis.

The reduction is necessitated by Pennsylvania's relative position after the 1940 census. If no solution is reached before next year's elections, the 33 Pennsylvania congressmen will be elected at large, instead of by districts.

The legislature left the task to a ten-man committee of senators and representatives, equally divided politically. (Turn to Page Six)

#### APPEAL OF REFINERS IS WEIGHED

A Quick Decision is Expected from Government on Request of Western Pennsylvania Plant Owners That They Be Permitted to Ship Gasoline Into Unrationed Ohio Permanently

#### VIEWS ARE AIRED AT PITTSBURGH MEETING

Pittsburgh, Oct. 9.—(P)—A quick government decision was expected today on the request of western Pennsylvania refiners that they be permitted to ship gasoline into unrationed Ohio.

The producers asked that either they be permanently exempted from the federal order prohibiting shipments to districts outside the 17-state restricted area, or that the boundary line of the restricted zone be shifted eastward to the Allegheny mountains, thus excluding them from the order.

After hearing the producers' views yesterday, John W. Frey, representative of the Office of Petroleum Coordination, said their suggestions will be considered by his office and the Office of Production Management, which would formulate recommendations to be submitted to Priorities Chief Donald Nelson.

He said Nelson presumably would act on the recommendations before next Wednesday, expiration date of a 15-day exemption from the curtailment order which has been granted to 10 western Pennsylvania refiners.

The temporary exemption was made because the refiners have contracts for large shipments to eastern Ohio. The 10 companies had been shipping 8,000,000 gallons a month, or about 50 per cent of their total output, to that district.

"The refining industry in the Appalachian area is an extremely critical one in national defense, because the lubricating oil produced here is absolutely necessary in the defense picture," Frey told about 100 representatives of the industry at the hearing in the Duquesne club.

The refiners explained that they were operating at capacity to produce lubricating oils essential to defense, but that the refining of lubricants inevitably produced gasoline, which had to be disposed of. If sale of gasoline in its normal form was not permitted, (Turn to Page Six)

#### GERMANY AND TURKEY SIGN TRADE TREATY

Berlin, Oct. 9.—(P)—Conclusion of a German-Turkish trade treaty involving 200,000,000 Reichs marks (nominally \$80,000,000) on each side was announced officially today. It will run until March 31, 1943.

A spokesman said that the pact, signed today at Ankara, called on Germany to send war material and iron and steel products in return for Turkish exports of raw materials, principally cotton, tobacco, olive oil and minerals.

#### TIGHTER CREDIT BUYING PLANNED

Washington, Oct. 9.—(P)—Another twist on the screws holding down consumer installment credit appeared today as the Federal Reserve board were that minimum down payments might be increased and maximum time to pay the balance might be reduced on some articles.

The reserve board was said to be studying this question earnestly and getting ready for a decision within the next 10 days.

One change being studied would plug up what some officials consider a loophole in the down pay- (Turn to Page Six)

#### 75,000 MEN IN PITTSBURGH TO PRAY FOR PEACE

Pittsburgh, Oct. 9.—(P)—An army of western Pennsylvania Catholic men, an estimated 75,000 strong, will convene in a colorful religious demonstration at Forbes Field Sunday night to pray for world peace.

Members of the Holy Name Society from more than 400 parishes in the 10-county area which constitutes the Pittsburgh diocese of the Roman Catholic church will take part in the Benediction of the Blessed sacrament.

The most Rev. Hugh C. Boyle, bishop of this diocese, four other bishops, 500 priests and 3,000 altar boys in white surplices and red cassocks will participate in the procession beginning the ceremonial night ceremony.

The baseball park will be transformed into an outdoor cathedral for the occasion. The altar will be in the field under a baldachin of canopy supported by eight pillars. Surmounting the canopy will be a gothic spire. A life-size crucifix will hang from the canopy. (Turn to Page Six)

SHERRY O'DEA FRIEL, Clarendon

Trust is written in capital letters on little Sherry O'Dea's face and we trust you won't overlook her in choosing the Community's Favorite Baby, for if you do, you're passing up an excellent possibility of a winner. Her friends and relatives love her alike, and you will too, when you know her better. She has the splendid qualities of a winner, though her little world just now is the Baby Election and nothing more. Sherry O'Dea is three years old, has blue eyes, blonde hair and weighs thirty-five pounds. She is the daughter of Mr. and Mrs. Jack Friel, Clarendon. Mrs. Mary Friel, Kenova, Pa., and Mrs. Blanche Sherry, of Clarendon, are her grandparents, and Mr. Cramer, Logan, Pa., and Mrs. John Sherry, Strattonville, Pa., are great-grandparents. Sherry O'Dea is ambitious and she has the campaign qualities of a growing young lady. With these fine characteristics Sherry promises to be a prize winner.

#### WASHINGTON IS INTRIGUED BY NOTE MYSTERY

Big Mystery in the Capital Is How the German Government Learned Contents of Personal Letter Sent Stalin By President Roosevelt

#### USED FOR PROPAGANDA

Washington, Oct. 9.—(P)—The White House shared public mystification today on how the German government learned what was in a letter President Roosevelt sent Premier Stalin, promising Russia aid against Germany.

Stephen Early, presidential secretary, said this government did not know how it happened, but "the significant thing is the use the Germans tried to make of the letter."

(The published German version had the salutation and conclusion in fully personal phrases.) Early added there was no reason why the letter should not have (Turn to Page Six)

#### FAMOUS TORCH SINGER IS DEAD

Chicago, Oct. 9.—(P)—Helen Morgan, whose name was synonymous with tearful love ballads ever since she starred in Flo Ziegfeld's "Show Boat" 15 years ago, died last night.

The 41-year-old torch singer, who last month while in Chicago for a theatrical engagement, had been in critical condition since an operation Sept. 25 for removal of the spleen. She was given 13 blood transfusions and had been unconscious for several days.

#### SPEEDY REVISION OF NEUTRALITY ACT IS KEYNOTE OF MESSAGE

Washington, Oct. 9.—(P)—President Roosevelt, asserting it was time for the United States to "stop playing into Hitler's hands, and to unshackle our own," urged congress today to revise the neutrality act speedily to permit the arming of American merchant vessels.

In a special message he also left the door open for further revision later to wipe out another major prohibition, that preventing American cargo ships to travel to belligerent ports.

Saying that Adolf Hitler "has offered a challenge which we as Americans can not and will not tolerate," the president said:

"We will not let Hitler prescribe the waters of the world on which our ships may travel. The American flag is not going to be driven from the seas either by his submarines, his airplanes, or his threats."

"We cannot permit the affirmative defense of our rights to be annulled and diluted by sections of the neutrality act which have no realism in the light of unscrupulous ambition of madmen."

"We intend to maintain the security and the integrity and the honor of our country."

"We intend to maintain the policy of protecting the freedom of the seas against domination by any foreign power which has become crazed with a desire to control the world. We shall do so with all our strength and all our heart and all our mind."

Administration leaders moved rapidly to implement the president's message, introducing bills in both houses to repeal the neutrality act provision against the arming of American merchant vessels.

Resolutions offered in the senate by Chairman Connally (D-Tex.) of the foreign relations committee and in the house by Chairman Bloom (D-NY) of the foreign affairs group would specifically authorize the president during the period of national emergency to

arm or permit the arming of American merchantmen.

Declaring it was obvious that world conditions had changed violently since the first neutrality act was passed in 1935, the president said:

The revisions which I suggest do not call for a declaration of war any more than the lend-lease act called for a declaration of war. This is a matter of essential defense of American rights."

Mr. Roosevelt said it was an "imperative need now to equip American merchant vessels with arms."

Even before the message appeared demands arose in the senate that modification of the law go beyond a rescinding of the ban against arming merchantmen.

Although the ship-arming amendment was the only one agreed on after two White House legislative conferences, a number of senators favored broadening the legislation to end existing prohibitions which keep American-flag vessels from belligerent ports and out of combat zones designated by presidential proclamation.

In the opposing camp, meanwhile, critics of the administration's foreign policy avowed their determination to fight every attempt to amend the law "as being, in fact, an authorization to carry on war." Senator Taft (R-Ohio) disclosed that the opposition strategy had been mapped last night at a bipartisan meeting attended by some 60 members of congress.

#### PASSAGE IS RESUMED IN ST. MARYS CANAL

Sault Ste. Marie, Mich., Oct. 9.—(P)—The Great Lakes' biggest freighters, with passage to blockaded locks partially restored, steamed on today with iron ore restlessness days of hung idleness.

Toward midnight workmen had cleared aside much of the obstruction to the main locks of the St. Marys falls canal, and early today the first freighter nosed through the channel eastward 46½ hours delayed.

SEN. REYNOLDS WEDS

Washington, Oct. 9.—(P)—Senator Robert R. Reynolds, of North Carolina, 57, and Evelyn McLean, 19-year-old Washington heiress, were married today in a private ceremony at the palatial estate of Mrs. Evelyn W. McLean, mother of the bride and owner of the famous Hope diamond. It was the senator's fifth and the bride's first marriage.

Under terms of the order Nelson is authorized to issue specific instructions for deliveries of scrap, even designating the source, destination, or amount to be delivered to or acquired by any person.

#### REHEARSALS FOR AIR GAMES ARE STARTED TODAY

Philadelphia, Oct. 9.—(P)—Rehearsal for a deadly game of aerial chess opened over Philadelphia today as hundreds of volunteer spotters and coordinators tried to outmaneuver speeding bombers and attack planes aimed at the city's vital defense industries.

Promptly at dawn American Legionnaires manned observation posts throughout the area on the lookout for swift fighters and bombers which were under orders to theoretically pierce the city's defenses.

As flight after flight roared toward the area from flying fields located between here and Langley Field, Va., their number, height, speed, direction and type were quickly noted and just as quickly telephoned to the army's intricate million-dollar filter station in a secret mid-city headquarters here.

There trained volunteers efficiently plotted the information on a room-size tale chart. In the balm above sat army and navy strategists, noting the dangers and (Turn to Page Six)

## HIGHWAY GROUP HOLDS MEETING AT WELLSBORO

A delegation of ten from Warren attended the annual meeting of the Roosevelt Highway Association of Pennsylvania, held yesterday at Wellsboro. The attendance at the meeting was said to have been the largest of any meeting since the formation of the organization fifteen years ago.

For the local delegation, H. W. Correll, secretary of the Warren Chamber of Commerce, presented a resolution for the association to request improvement of the Roosevelt Highway between Warren and Youngsville, which was unanimously adopted. O. A. Pressel, of Warren, seconded the motion and L. E. Seavy, manager of the Warren County Motor Club, spoke in its behalf.

According to reports of the association secretary and publicity manager, the association distributed 40,000 maps of the Roosevelt Highway in Pennsylvania this year and has 30,000 for use until the 1942 map is prepared. The maps are distributed through motor clubs, tourists bureaus, and similar organizations and are furnished only on request, which assures that none are wasted. In addition to the maps, 14,000 monthly bulletins describing current attractions along the highway in our state were distributed.

"Warren shares with other towns on the Roosevelt Highway in the results of this splendid publicity," say Correll, "and with other communities should bear its share of the expense. Warren was one of few communities which failed to raise its quota for the 1941 budget. Business men who recently were solicited by mail by the Association may still send checks to be included in this year's account, and inasmuch as this is a decidedly worthwhile project, I hope many will do so. None of the money is used for executive salaries, and it is all accounted for."

Correll reports that at the 1940 annual meeting the Association had a cash balance of \$900 while, with all bills paid, this year the balance is approximately \$1600, including funds reported yesterday.

The association map lists five towns of interest near Warren, and additional ones will be included in the next edition, it is stated.

One of the usual attendants at the State association meeting," reports Correll, "is from Fort Lewis, N. Y. He was unable to be present yesterday inasmuch as he had been called to Albany by the Gov-

She's as Lively as a Youngster—Now her Backache is better  
Many sufferers believe nagging backache quickly comes their way, but the real cause of their trouble may be tired kidneys. The kidneys are Nature's chief way of taking the poisons from the blood and out of the body. They help most people pass about 3 pints of urine a day.  
When doctors of kidney function prove to you that you must remain in your bed, it is because of backache, rheumatic pain, leg pain, loss of pep and energy, getting up stiff, aching, pained under the back, headache and dizziness. Frequent or scanty passages with any of these and burning sometimes shows there is something wrong with your kidneys or bladder.

## WARREN RELIEF VOTES TO PACK BASKETS AGAIN

The board of directors of the Warren Relief Association, holding their regular meeting Wednesday at the Y. W. C. A. activities building, voted to continue this year their annual custom of packing Thanksgiving baskets for needy families of the borough and county.

Mrs. Paul B. Stewart, president, was in charge of the meeting during which routine reports were given.

Mrs. Alfred Cobb, in charge of the relief room on Liberty street, stated that during the month she had aided two transients, 167 clients, giving out 583 pieces of clothing and 69 pairs of shoes.

Mrs. Francis G. Hood, of Marinette, Wis., guest of Mrs. H. R. Fisher, was a visitor at the meeting.

## COUNTY SCHOOL MEN HERE FOR DINNER-MEETING

School men of Warren borough and county, holding a dinner-meeting last evening at the Y. W. C. A. activities building, elected E. B. Eaton, of Russell, as their president for the coming year.

Other officers named were A. F. Dunham, Warren, as vice president; C. E. Sherman, of Tionesta, as secretary, and Allen Frank, of Sugar Grove, as treasurer.

C. W. Lillibridge, superintendent of McKean county schools, addressed the group on "A County Film Library for Schools," giving the Warren county men the experiences of setting up a workable film library in his own county. Since Warren county is contemplating such a project, the talk was a very timely one.

An invitation was extended by H. F. Reed for members to hold their next meeting at Lander.

## East Hickory

East Hickory, Oct. 2.—Church services will be held immediately following Sunday school, at the Methodist church next Sunday, conducted by Rev. H. Stevenson.

The Free Methodist church will hold the regular morning services.

Friends of the Methodist congregation appreciate the kindness of the friend who attended to the repairs needed in replacing the window glass and having the lawn moved on the church property.

The Free Methodist congregation has had a new roof placed on the building and are having new paint inside.

An encouraging response was made at the meeting called by the Ladies' Aid Society at the hall, when the tureen supper was well attended and some generous contributions were made toward the cemetery fund.

A committee of the town people will be named who will defray the expense of clearing up the cemetery grounds and look after the funds received. This interest shown is much appreciated by those who were in charge of the movement.

The Ladies Aid Society will meet this Wednesday evening at the hall for a social hour with their friends, and the committee in charge will furnish a light lunch for a small sum.

**DEFENSE COURSES**

Warren is indeed fortunate in being named among 113 towns in Pennsylvania where free tuition is being offered by State College in its new autumn defense training program.

These courses will be held in the Warren High School and will average fifteen weeks in length.

The idea behind the project is to provide a reservoir of technically skilled men and women for defense industries.

Regardless of whether or not their services will be in demand when the program is finished, the training they will receive will be invaluable in later years.

Each student will secure an educational basis that will count heavily, perhaps not at the present time, but in the years that stretch ahead.

Skill counts heavily in all industry and this skill is more and more in demand in local industrial establishments, and therefore valuable in that respect.

State College has been one of the pioneers in extension work and the nine courses they map out are designed to fill the crying need for more skilled personnel in industry.

**GIRL SCOUT CAMPAIGN**

Our compliments and best wishes to those sixty women in Warren county, outside the borough, who are engaged this week in an intensive drive to raise \$1,200 to complete the Warren County Girl Scout budget for the period October, 1941, to October, 1942.

It is interesting to note that from one to three Scout troops are located in the towns which are asked to support the organizations, which include Clarendon, Kinzua, Irvine, Spring Creek, Starbuck, Ludlow, Russell, Pittsfield, Sheffield, Sugar Grove, Tidioute and Youngsville.

It is safe to predict that people residing in these suburban centers will show their appreciation for the fine work being done through the Girl Scout organization by rapidly subscribing the amount sought to finance the training and supervision of leaders, keeping of records, telephone, postage, mileage, etc., to bring the paid director into each community, along with maintenance of Camp Birdsall Edey, at Grunderville, which is so much enjoyed by every person connected with the organization.

**PEACE HAS ITS VICTORIES**

In the midst of the din of perhaps the most titanic war of all time, peace timidly steps up to register a small victory.

Yet who shall say it is a small victory when Argentina, Brazil, the United States, and other American nations peacefully persuaded Ecuador and Peru to conclude an armistice in their border war, each withdrawing troops from the disputed area pending negotiations for more permanent settlement?

In any time, such an achievement is not negligible. In times like these, such a victory for peace, small though it is in the face of terrible World War II, is perhaps even greater than it would be in normal times. It shines like Shakespeare's little candle, "a good deed in a naughty world." Yet it is from just such tiny flickers of light that great beacons are kindled.

The borough was host to several hundred Bell Telephone Company employees from the Warren district last evening and what swell folks they are!

Frank Kottcamp, campaign promoter extraordinary, has some new ideas he is about to launch that should put the Y. W. C. A. drive over in a big way.

News from the Eastern front justifies the belief that the crisis in the battle between Russia and Germany may be nearer than some folks realize.

Many a Warren man has discovered that among the books with unhappy endings are check books.

Beats all how fast the tenth of the month rolls around!

**MAN ABOUT MANHATTAN**

By GEORGE TUCKER

NEW YORK—I listened to a discussion of famous promoters and sports characters at a restaurant off Broadway last night, and though everybody from Tex Rickard and his Klondike Shenanigans to Ruth Ederie, the channel swimmer, came in for discussion, nobody happened to hit on Douglas Hertz, who probably has led the most adventurous life of them all.

Hertz is owner of the New York Football Yankees and a promoter of wide talents and experiences. For twelve years he was a captain in the British Army. He was on the Lusitania when it was torpedoed during the World War. ... Later he organized a series of widely-ballyhooed pig races in Florida, acquired a polo club in New Jersey, and became the owner of several nightclubs. Recently John Kimbrough, the All-America football star from Texas, came under the interested gaze of Hertz and he gave the star a \$35,500 contract without even bothering to inquire what position Kimbrough played. ... But in this Hertz was only being consistent. ... Though he owns the Yankees, he has never seen a game of football.

IN ADDITION to being a widely known and highly-paid strip-dancer, it now appears that Gypsy Rose Lee is a voluminous letter writer. A batch of her epistles have just been made public by the publishers who are bringing out Gypsy's mystery-thriller, "The G-String Murderer," this fall. ... The reasons the letters were published in an attractive little brochure is that nobody believed Gypsy really wrote the book herself. ...

Skeptics are continually asking Lee Wright, "Where the ghost?" So Wright gathered up all Gypsy's correspondence, written on hotel stationery from San Francisco's Fairmont to Detroit's Book Cadillac, and made them public. ... Some of the lines make your eyes pop.

This isn't placed here with the idea of antagonizing the ladies, but Alfred Wallenstein insists no woman can tune in a radio station properly. ... "The most serious music lovers are doctors and chess players," he says, "which may explain why most musicians are interested in medicine and chess." Wallenstein himself studied surgery before becoming a successful conductor.

**HERE'S** a nice piece of descriptive writing after witnessing a storm on the Caribbean. ... "The sun rose like a gigantic sliced beet out of a blue platter, drenching the sea with hues of blood and splashing the waves." From Emile Zola's "My Last Million Readers."

The movies are going to film an old Broadway musical comedy, "Hit the Deck," but most of the musical score will be discarded and a new score written. The lone exception is the number "Hallelulah," which prompts this corner to inquire, "Why toss out 'Sometimes I'm Happy'?" which was one of the most pleasing and popular ditties ever composed.

Russell Swann, the nightclub swami, is a former bond salesman. He deals now in rabbits and legerdemain.

**STAMP NEWS**

POST Office Department announces that four stamps have been removed from public sale at the Philatelic Agency, Washington. These are: three-cent Panama Canal issue of 1939; five-cent Louisa May Alcott; 10-cent Alexander Graham Bell. The stamps were among those issued in the Famous American series of 1940.

Sweden has issued its highest denomination stamp, a new five-kronor value. Printed in light blue, it shows a view of the royal palace in Stockholm. It is impregnated "5-Kronor" and "Sverige."

Despite the war, Russia continues to issue new stamps. A two-denomination series marks the death of Mikhail Yurevich Lermontoff (1814-1841), poet and novelist. Values are 15-kopeks blue-green and 30k violet. The other, a four-value series, honors V. I. Lenin (1870-1924), founder of the U. S. S. R. Values are 15k and 40k blue-green, 30k violet and 1-ruble red-brown.

It is reported air mail service between the United States and Liberia will soon start. The government of Liberia is overprinting 800 sets of current airmail stamps for use as postage on first-flight covers from Monrovia. It is also overprinting 15,000 copies of Commonwealth commemorative stamps for airmail use.

New issues: Paraguay, four semi-postals for maternity welfare. All values are 7 plus 3-peso but colors are different. ... Spanish Morocco, five scenic low-value pictorials. Values—5-centimos brown, 10-cent red, 15-cent green, 20-cent blue and 40-cent maroon. ... Union of South Africa, 5d deep blue honoring defense work of women.

More than 50 per cent of new vehicle sales were absorbed in replacing old vehicles scrapped. Over the past 10 years a yearly average of 2,908,144 new vehicles have been sold retail, while 2,338,661 old cars have been scrapped.

World registration of motor vehicles now is about 42,000,000 passenger cars and trucks. Of these, about 30,000,000 are in the United States.

**FORGOTTEN MEN**

Long considered the "forgotten man" of the U. S. was the vice president, but Vice President Wallace is playing an important role in the defense program. How much do you know about his successors?

1. Thirty-one men have served as presidents of the United States. How many vice presidents have there been?

2. Name five of the nine U. S. presidents who were also vice presidents.

3. Besides President Franklin D. Roosevelt, what presidents have had two different vice presidents serving with them during their terms of office?

4. What four presidents served without vice presidents?

5. What two vice presidents each served with two different presidents?

Answers on Page 6

More than one-sixth of all retail dollar volumes of U. S. service stations in 1930 came from services and merchandise other than gasoline and oil.

Military motor vehicles purchased by the United States Army must pass a tortuous test on a 60 per cent grade before they are accepted by the authorities.

**A WASHINGTON DAYBOOK**

By JACK STINNETT

WASHINGTON—You've heard of the CCC, NYA, the CPTP, and several other vocational and national defense training projects, but if you haven't heard of the OSY, put it on your list now, because it's on the upswing.

The OSY is the Out-of-School Rural Defense Training Program—a year ago a mere snip of an outfit that had only \$10,000,000 to play with (and only \$15,000,000 this fiscal year). However, the government is plugging catch-up catch-up with defense bottlenecks and it is beginning to appear that OSY is sitting tight where a serious one is developing.

As OSY was originally conceived, out-of-school rural youth was to receive training in farm mechanics and in the skilled mechanical fields.

It turned out that most farm boys could take a tractor apart and put it back together, wire the house, build short wave radios that would pick up Europe, and make mechanical milkers out of two feet of hose and an old vacuum cleaner.

There were two other factors—the draft and the discovery by industrial employers that farm youths, even if they didn't know their mechanics, were more jumps ahead of city boys because they were "work-trained." You didn't have to teach them how to work, you merely had to teach them what to do.

The result of all this has been a shortage of farm youth on the farms. It has been developing fast and for months now it has been a serious concern of vocational and national defense officials. That's why OSY has outgrown its rompers and is getting two to four times the requests for training schools that it can supply.

**South's Needs Are Urgent**

WHILE some OSY training centers, such as that at Dayton, O., have turned out youths who have moved right into defense industries, much more important now are those more numerous centers which are turning skilled mechanical farmers back to the farms. At Lathrop, Texas, for example, the boys make hoes, scythes, plows, window-screens, self-feeders, cold chisels, shovels and hay hooks. They shod horses, repaired automobiles, tractors and gas engines and plows—and went back to the old homestead.

Better than 50 per cent of the OSY training centers are located in the rural areas of the South, for it is there that the demand has been greatest. Nearly all of the southern states have 6,000 to 7,000 boys going through this OSY mill. Texas, which is leading them all, has 24,320 enrolled in 314 centers.

An interesting phase of OSY work is the way that industry is cooperating in providing instructors. Electrical companies, wood-working firms, and dozens of concerns in trades have given skilled workers time off to make these out-of-school youngsters the kind of jack-of-all-mechanical-trades that the farmer of today has to be.

## PLEASING TALK ON BOMBS GIVEN BY FIRE CHIEF

At the weekly luncheon meeting of the Warren Kiwanis Club, held yesterday noon at the Y. W. C. A., members enjoyed a very interesting talk on "Incendiary Bombs" by Fire Chief Douglas G. Kropf. The talk was based on information obtained by the fire chief at a recent international firemen's convention in Boston.

Chief Kropf told the Kiwanis members that four types of bombs are being used in the present European war. These, he said, are magnesium or electron bomb, thermite bomb, phosphorous bomb and oil bomb.

His talk was mainly concerned with the magnesium bomb, which is most used by the Germans in starting fires in Britain. He told of the composition of the bomb and its effect in starting fires. He also outlined the British methods of fighting fires started by the incendiaries.

During yesterday's meeting, P. E. Nelson told of plans for the start of the Saturday Evening Boys' Club at the Y. M. C. A. Dr. T. E. Colley announced the forthcoming Y. W. C. A. Emancipation Campaign.

Almost 31,000 miles of lighted, operating airways now constitute the federal network and another 2000 miles of airways are under construction.

In the recent nation-wide drive for aluminum for war planes approximately 14,000,000 pounds of aluminum has been contributed—and that is not a complete return.

Three Pacific islands—Midway, Johnston, and Palmyra—are now commissioned as U. S. Navy air bases.

## Part Played in National Defense Activities By Telephone Service Is Emphasized at Bell Rally Here

The vitally essential part that telephone service has in the ever-increasing activities for national defense was emphasized last night by speakers highly placed in the government service and in industry at a rally of Bell Telephone Company of Pennsylvania workers in the Woman's Club, Warren.

With an attendance of about 400, the rally here was one of nineteen meetings, conducted simultaneously throughout Pennsylvania and in Delaware. All meetings were united by a telephone network.

Attendance at all the assembly points was estimated at close to 25,000. Virtually every employee was present except telephone operators on night duty at switchboards and maintenance staffs at the various telephone exchanges.

The speakers included William H. Harrison, production director for the Office of Production Management; Brigadier General Dawson Olmstead, acting chief signal officer U. S. Army; Rear Admiral A. E. Watson, commandant of the Fourth Naval District and commandant of the Philadelphia Navy Yard; and Andrew W. Robertson, chairman of the board Westinghouse Electric and Manufacturing Company.

The Bell telephone organization customarily geared to emergency

service over and beyond the normal needs of service, is now facing the challenge of national defense needs which are growing daily at an unprecedented rate.

What the challenge is was outlined by the guest speakers. At Army posts, lighthouses, supply depots, arsenals, the Philadelphia Navy Yard, and other government centers ever, expansion of effort and personnel has called for an expansion of telephone service. So, too, with defense plants working on orders running over a billion dollars and with new housing developments to shelter added thousands of workers.

How the challenge is being met was set forth by Philip C. Staples, president of the Bell of Pennsylvania, and by other officials of the company. To all employees there was a call to even greater efforts in the face of staggering demands for telephone service.

Music and unison singing preceded the major addresses made from various cities and heard at all the meetings. A feature was the showing of a motion picture, "The Job Ahead," prepared especially for the rallies by the Bell Company.

Howard O. McGrath, district manager for the Bell Company, was chairman of the rally at the Woman's Club. The invited guests included H. D. Kopf, president, Hammond Iron Works; H. W. Conarro, vice president and general manager Stutthaus-Wells Corporation; Ed C. Lowrey, editor, Warren Times-Mirror; and M. L. Davis, vice president, Dresser Manufacturing Company, Bradford.

At 7:45 p. m. unison singing started, accompanied by a concert orchestra at Philadelphia heard over the entire network. At 8 p. m., after a fanfare of trumpets the start of the program was announced by P. L. Schauble, general information manager. J. Frank Cox, vice president and general manager of the Bell Company, then delivered a brief "key-note" address for this area.

Mr. Schauble then introduced F. J. Chesterman, vice president in charge of operations of the Bell Company who spoke from Harrisburg. Mr. Chesterman presented Edwin M. Clark, vice president personnel who spoke from Pittsburgh. The next speaker, Mr. Harrison of Pittsburgh discussed what the government expects of the telephone organization. Mr. Chesterman next introduced Mr. Robertson at Pittsburgh who told of what the defense manufacturers expect.

Shortly before 9 p. m., Mr. Staples took over and presented General Olmstead who spoke of what the Army expects, and Admiral Watson who told of what the Navy expects of the telephone organization.

Mr. Staples then delivered an address—"As the Telephone Organization Sees Its Responsibility." Responses to the company president's talk came in sequence from company executives at Pittsburgh, Harrisburg, Philadelphia and Wilmington, Del.

## COURSE OFFERED BY CLEARFIELD INSTITUTE HERE

Clearfield Aviation Institute, of Clearfield, whose representatives are now in Warren for the purpose of forming an extension class in aviation industrial mechanics, is now the proud possessor of five airplanes for primary and advanced training purposes and announces the addition of a flight training course to its original courses. These include aircraft and engine mechanics, aircraft construction, master mechanics, welding and sheet metal.

An inspection of the fleet of five new ships hanged at Kyletown Airport was made recently by Lt. Comdr. R. F. Martin, president of the school and now in active service as naval inspector for three large aircraft plants in the east. He was accompanied by M. L. Withelov, executive director, who will be in charge of the flight program.

The ships include a Luscombe "Silvane," all-metal two-place monoplane powered with 75 H. P. Continental engine; a Stearman biplane, similar to those in use by the U. S. Army, powered with Wright 230 H. P. engine, two Piper Cubs powered with 65 H. P. Lycoming engines and a Fairchild four-place plane with 175 H. P. Ranger engine.

The course offered here has been the means of placing in the aircraft industry every young man who successfully completed the work, according to officials. Similar classes have been formed in Indiana, Houtzdale, Altoona, Johnstown, Tyne Bradford, Erie, Franklin, Oil City and Punastutney.

## Letters to the Editor

Editor Times-Mirror:

In order to correct a false impression that exists in Warren and particularly among my friends, I will state in your paper that in the recent case involving two gypsies who were brought here from Tennessee, I did not receive the full amount of approximately \$2,400 which had been taken from me. Instead as a matter of fact, on advice of my attorney and others connected with the case, I agreed to take \$300. I appreciate the efforts of the police department and county officials in bringing the gypsies to justice, but it seems unfair that the public should be left with the understanding that full restitution was made.

- 5 cups concord juice
- 1 package M.C.P. Pectin
- 7 level cups sugar

For juice from other varieties of grapes use these proportions:

- 3½ cups juice
- ½ cup lemon juice
- 1 package M.C.P. Pectin
- 4½ cups sugar

Measure juice (and lemon juice) into 5 quart kettle. Stir in M.C.P. Pectin and heat to a full boil. Now add the sugar (previously measured). Bring back to a full boil and boil hard for 2 minutes.

You can use dissolved M.C.P. Powder instead of

## Richard D. Arnold Brings Brocton Girl To Warren As Bride

Many relatives and friends locally will be interested in the following excerpts from an article published in the October 6 issue of the Dunkirk, N. Y., Evening Observer:

The marriage of Miss Marjorie Jane Rathe, daughter of Supt. and Mrs. A. W. Rathe, of Lake Erie State Park, Brocton, and Richard D. Arnold, son of Mr. and Mrs. C. A. Arnold, of Warren, Pa., took place in St. John's Evangelical church at 4:30 o'clock Saturday afternoon, October 4. The Rev. C. J. Zimmerman performed the ceremony.

The bride, wearing ivory satin in princess style, had as her matron of honor her sister, Mrs. Richard Rathe, in turquoise blue crepe. Bridesmaids were Miss Sally Silver, of Brocton, in plum taffeta and velvet, and Mrs. Nelson Reder, of Dunkirk, in blue taffeta and velvet.

Hugh J. Arnold, of Bohvar, N. Y., was his brother's best man. G. Stanley Lemmon, of Warren, Pa., brother-in-law of the bridegroom, and Walter Rathe, of Brocton, brother of the bride, were ushers.

At 5:30 a dinner was served to the wedding party at the Francis Hotel. A reception was held from seven to ten at the home of Mr. and Mrs. Walter Rathe in Highland avenue, Brocton.

After an eastern wedding trip, Mr. and Mrs. Arnold will be at home at 101 East Wayne street, Warren, Pa. The bride is a graduate of Dunkirk High School, Mr. Arnold is a graduate of the Warren High School and Grove City College, and is employed as a chemical engineer by the United Refining Company in Warren.

Guests who came from out of town for the wedding included Mr. and Mrs. C. A. Arnold, Mrs. E. A. Arnold, Mr. and Mrs. C. Sturley Lemmon, of Warren.

## High School Girls Conducting Canvass

The second open meeting of the High School Girls' Club was held in the Y. W. C. A. gymnasium, Charlotte McComas conducting the business session, and Louise Johnson in charge of devotions.

Reports were given by different committee chairmen. Joanne McGarry, chairman of the membership campaign, announced many girls have already joined and a goal of 200 is hoped for by the end of the campaign on October 20. All sophomore, junior and senior girls are eligible.

Several announcements were made by Florence Armstrong, Girl Reserve secretary, and the girls were reminded that they are invited to a tea given by the M-Y Club of the Jamestown Y. W. C. A., immediately following the football game on Saturday.

The meeting was turned over to Beverly Milway, program chairman, who presented Aline Eaton in a recitation, "Gunga Din" by Kipling. The girls' trio then sang a number written especially by them for the club, is called "Hi, Sister" and is set to the music of "Hi, Neighbor." Afterward the entire group learned the new composition. Following some more group singing, refreshments were served by Shirley Allen and her committee.

**HOME STREET CLUB BEGINS NEW SEASON**

The first regular meeting of the Home Street Mothers' Club was held Monday evening at the school. Mrs. Fred Plummer, president and in charge of the meeting, extended greetings to about 50 members and a special welcome to the teachers and the new mothers entering the club.

Mrs. Leonard Nicholson, vice president, gave the devotions, reading an interesting article about "Success" and a poem, "The Secret."

During the business meeting, it was voted to continue sponsoring the two Brownie packs and the Girl Scout troop. Several other items pertaining to the welfare of the club were discussed. Reports were given by the following chairmen of the standing committees: Program, Mrs. Lewis Garber; ways and means, Mrs. Roland Howe; publicity and benevolence, Mrs. Rainer Forsgren; Brownies and Scouts, Mrs. Clifford Johnson; devotions, Mrs. Leonard Nicholson; refreshments, Mrs. Sturley Lemmon; moving pictures, Mrs. Glenn Mickelson.

Group singing and games in charge of the program committee, Mrs. Garber, Mrs. Francis DeLong and Mrs. G. R. Budd, were very much enjoyed by the club. Refreshments were served by a committee consisting of the executives and various chairmen.

## Baptist Missionary Women Cooperating In Emergency Fund

The Woman's Missionary Society of the First Baptist church met at the home of Mrs. Earl Burbee in North Warren Tuesday afternoon at 2:30 o'clock.

Plans were made for cooperating in the \$600,000 World Emergency Fund to be raised by Northern Baptists. \$100,000 of which is being subscribed by the women of the northern Baptist churches. Mrs. F. M. Caughey and Mrs. Verdie Strickland were named as a committee from the women's society to perfect plans with other leaders of the local church, who will assume responsibility for the raising of their quota by December 7.

Miss Anna G. Snyder, program chairman, outlined the several program meetings of the year, with the central theme "Love" as emphasized in the life of Christ. Mrs. H. G. Euerkle led devotions centered upon the theme, with particular emphasis upon universal brotherhood. This was a fitting introduction to the review of the book "A Christian Imperative" by Roswell Barnes, ably given by Rev. James A. Davidson.

The president, Mrs. C. F. Sill, announced the November meeting would be held on Monday, the 10th, with Mrs. W. T. Vandever and Mrs. M. C. Goodspeed, of Erie, as guest speakers. Supper will be served preceding the program by the women's society and the Nearer and Farther Lights Society.

At the close of the meeting, a buffet luncheon and social hour were enjoyed.

### Warren. The units studied problems of clothing construction, home furnishings, repair and refurnishing of furniture, chair caning, upholstering of furniture, diet plans and various other subjects.

and her mother, Mrs. Lulu Morgan of High Falls, N. Y., were at her bedside in Henrietta hospital when she died.

Miss Morgan, a Danville, Ill., girl who once clerked in a Chicago department store, climbed atop a piano to sing her way to fame in the fabulous 1920s, years of free spending, extravagant theatrical productions, speakeasies and night clubs.

She was remembered most as the original Julie, sobbing and singing "My Bill" and "Can't Help Loving That Man of Mine" in "Show Boat." She played the same role in motion picture versions.

On May 15, 1933, she secretly married Maurice "Buddy" Maschke, Jr., Cleveland lawyer. She divorced him in 1935.

Appealing Comedy Is Chosen By Players  
For November Studio Session; Try-outs Mon.

Try-outs have been announced for the Warren Players' November studio meeting, when the three-act comedy "Fresh Fields" by Ivor Novello is scheduled for presentation. All active members are urged to try for parts at the home of Mrs. W. H. Wright, 14 Fourth avenue, next Monday evening at eight o'clock.

"Fresh Fields" is an exceptionally good vehicle for the amateur actor. A quick comedy, it reaches farcical heights at times, and characters are easy of portrayal, each a definite type. There is much sophistication but little subtlety.

Although the well known actress Margaret Anglin played the part of Lady Mary Crabbe when "Fresh Fields" enjoyed a successful run in New York in 1935, this part is no more appealing than that of her sister, Lady Lillian Bedworthy. Lady Mary appears hard and practical, while Lady Lillian remains sentimental and languishing. What with all their money invested in Turkish railways, on which a train has not been run for some time, the sisters have had to try to help themselves with cornstone layings and an advice-to-the-lovelorn column. However, if Tim, Lady Mary's son, would just marry, there is all his inheritance!

Tim, no idealist, knows they need money but refuses to marry because it's to his advantage or because I'm told to. I'm going to marry because I want to, he tells his mother.

Miss Swaine, the attractive, clever secretary, can not only keep the servants pacified without pay, but writes Lady Lillian's lovelorn column. She uses just the right amount of bullying on Ludlow, the butler. His job, he confides, is now a hard one. "There was a time when I could tell a business acquaintance from a friend at a glance, but now—"

That is the situation when the Pigeons from Brisbane, Australia, arrive. As they're simply rolling in money, things begin to happen. Lottie Pigeon, the mother, says what she thinks and expects others to do the same. Anna Pigeon, the daughter, is very pretty, but not at home in London society. She had a lot better time at the dances back in Brisbane. Tom Larcomb, Una's uncle, is a rough and ready sheep rancher who finds Lady Lillian, to her disgust, much to his liking.

Then, there is Lady Strome, a friend of the sisters, who finds Mrs. Pigeon's common sense and outspoken ways refreshing.

The play is being coached by Mrs. Wright, assisted by Sonny Clark, with Mary Ayers as program advisor. They are particularly interested in having new members of the club try for parts. It is one of the practices of the club that the new talent be used first in studio work before selection for the public shows, and this is a most appealing vehicle in which to make a "first appearance." If any members are unable to come to try-outs Monday evening, they are asked to call the director and arrange to read at another time.

Copies of the play are in the Public Library for all who would like to read it beforehand and may be seen there until just before eight o'clock on Monday evening.

Women of the Moose  
Sewing for Red Cross

At last night's meeting of Warren Chapter No. 693, Women of the Moose, announcement was made by Mrs. Gertrude Monnell, war relief chairman, that she has obtained an assignment of Red Cross sewing for the unit. Mrs. Helen Larson, past regent, invited the ladies to meet at her home, 115 North Irvine street, all day Friday to do this work. Those who can be present throughout the day are asked to bring a turnover for the noon luncheon.

Senior Regent Hilda Anderson conducted last night's business session and attendance prizes were awarded to Mrs. Ida Collins and Miss Jennie Moborg. One new member, Mrs. Anna Hammond, was obligated into the order, and the death of a co-worker, Mrs. Emma Jones, was reported by the matron. The following chairman presented reports of their activities: Mrs. Ella Small, membership; Mrs. Mary Gantz, publicity; Mrs. Rhea MacDonald, Mrs. Elsie Dennis and Mrs. Gertrude Simmons of the Jamestown, N. Y., Chapter, were visitors and extended an invitation for the local women to attend an open meeting and initiation sponsored by the alumni chairman on Sunday, October 20.

The next regular meeting of the local group will be on Wednesday, October 22.

**GOULDTOWN CLUB HAS ANNIVERSARY**

The sixth anniversary of the Gouldtown Club of Gouldtown was observed with a gathering at the home of Mrs. John O. Erikson, with Mrs. Harry Erikson as hostess. The following officers were elected for the coming year: President, Mrs. Harry Erikson; vice president, Mrs. Carl Nelson; secretary, Mrs. William Owen; assistant secretary, Mrs. Harry Johnson; reporter, Mrs. Herbert Storer; flower committee, Mrs. John O. Erikson and Mrs. Harry Johnson. It was voted to give \$5 toward the painting of the community church. A written inventory of the club proved interesting.

A program included the singing in unison of "America the Beautiful," devotionals led by Mrs. Herbert Storer, and readings by Mrs. Harry Erikson and Mrs. Carl Johnson. Refreshments were served by the hostess.

The November meeting will be held at the home of Mrs. Clyde Johnson on Thursday, November 6. Meetings in the future are to be held on the first Thursday of the month instead of the customary Saturday.

College Authority  
To Speak To Group

The monthly meeting of the Pre-school Child Study Group will be held Monday evening, starting promptly at eight o'clock, at the home of Mrs. Rachel Easton, 305 Hazel street.

This session will be of considerable interest in that Miss Lavonne Strong, reading supervisor from Pennsylvania State College, will speak. She has chosen as her topic "Hearing, Speaking, Reading and Writing Vocabulary." Miss Strong comes to Warren two days a week to supervise reading in the schools and gives help and instruction to the teachers. She is also interested in pre-school age children and will, no doubt, have much information regarding their training.

The hostess will be assisted by Mrs. Geneva Reed, Mrs. Bertie Garrett and Mrs. Esther Smith.

Washington Is Intrigued  
By Note Mystery

(From Page One)

been released generally in Moscow since it was not regarded here as "confidential."

The official German news agency, DNE, raised the curtain on the mystery in Berlin yesterday by distributing the purported text of Mr. Roosevelt's communication.

Some time later, the White House released the text here, and invited a comparison of it with the version that DNE was circulating.

"When such a comparison is made," the White House statement said, "the propaganda objectives of the Nazi action become very clear."

A comparison disclosed that the wording of the body of both texts was identical, except for an occasional phrase here and there in the DNE version—and such variations were reported to be due largely to translation.

There were two very pointed differences, however. Where the salutation in the White House text was "My Dear Mr. Stalin," the unofficial translation of DNE's version had it "My Dear Friend Stalin." Similarly with the conclusion, "Yours very sincerely" for the White House and "Yours in Friendship" for DNE.

The White House apparently referred to these differences when it spoke of Nazi "propaganda objectives."

But the capital was curious about where Berlin got its knowledge of the contents of the letter, which was delivered to Stalin about 10 days ago by Averell Harriman, head of the American aid mission to Moscow.

DNE said it had acquired the letter from the most reliable quarters, but it did not say how.

There was a belief in some quarters that the Germans somehow got hold of the text in this country and transmitted it in code to Berlin via South America.

But as far as could be learned, the only known sources here would be the White House, where the letter is believed to have been written about three weeks ago, and the state department, which probably received a copy of the message.

No Solution to Congressional Apportionment

(From Page One)

Chairman Leo A. Acherman of the house group said other suggestions would:

Combine Berks with Lehigh and Bucks with Montgomery—the original Democratic plan during the session.

Use this setup and eliminate one district in Philadelphia and elect one member at large.

Re-shuffle Philadelphia's district to eliminate one from there.

Remove one from Philadelphia and one from Allegheny, and add one to Luzerne—the original Republican party proposal.

Revise the 15th, 16th, 20th, and 18th districts in such a way as to eliminate the 23rd. Blair county would be moved to the 18th, Lycoming from the 16th to 15th, Clearfield and Centre to the 16th, McKean from the 16th to 20th.

The "cold light" of the fiery can be duplicated by scientists, but it is too costly to be practical.

Acceptances Asked  
For DAC Luncheon;  
Conference Is Soon

Members of Kanoagoo Chapter, National Society, Daughters of the American Colonists, are reminded that they must have acceptances for the Saturday luncheon, being given by Mrs. L. L. Hunter, in the hands of Mrs. W. F. Clinger no later than this evening.

It will interest local members to know that the Pennsylvania state conference of the National Society, Daughters of the American Colonists, will be held in the Bellevue Stratford Hotel in Philadelphia on Saturday, October 25. The William Penn Chapter of that city is hostess for the conference.

Mrs. Norvin S. Wile, state regent from Norristown, will preside at the sessions, and Mrs. L. L. Hunter, of Tidloote, honorary national president, will appear on the program.

Delegates from Kanoagoo Chapter of Warren are the regent, Mrs. C. F. Sill, ex officio; Mrs. Robert Selden, of Warren, and Dr. Nancy Morrow, of Oil City. Alternates are Mrs. John Reid, of Oil City; Mrs. E. B. Whiting, Miss Anna Snyder, Miss Olive Taylor and Miss Harriet Eaton, of Warren.

arsenal against the Red Army stand on the central front. The belief was expressed, however, that the Russians had rushed up equipment even down to flame throwers that was almost formidable.

These sources said the German push farther south, from Poltava toward Kharkov, was meeting extremely stiff resistance. There was no word of further Nazi advances down the Perekop peninsula into the Crimea, nor of further Axis gains in the siege of Leningrad or Odessa.

The battle was described as raging with some of the fiercest fighting of this or any other war.

There is every reason to believe the Russian morale has been stiffened by Adolf Hitler's fresh assault, these London sources said.

Powerful frontal attacks by German forces created pockets of possibly encircled or semi-encircled Russian troops, the authoritative sources related.

The most dangerous German thrusts were said to be those from the region of Vyazma, 125 miles west of Moscow, and in the vicinity of Orel, east of Bryansk.

Meanwhile, British were warned today of dangers to Soviet Russia and Britain, too, in the mighty German offensive along the Russian battlefield.

translating orders to the various defense units.

The game all is a part of exercises which will last for a week, while the army checks for the first time the efficiency of its vast permanent air raid warning system, designed to protect the eastern seaboard.

In New York, Mayor F. H. LaGuardia issued a special warning to some 7,000,000 residents not to be alarmed by the sudden movement of fire apparatus, ambulances and troops and pointed out that a part of the maneuvers would be an attack on Fort Tilden in Queens, where a force of 1,000 to 1,500 troops from Fort Hancock, N. J., would attempt to make a landing under the protection of fighter planes.

At LaGuardia Field, the world's largest airport, batteries of coast artillery anti-aircraft guns and a body of troops equipped with searchlights and listening apparatus awaited the series of "attacks" that likely will be spaced through the week.

Decree Forbids  
New Projects

(From Page One)

The ruling grants the implication that the Emergency War Control Administration, headed by Donald M. Nelson, by using its priority power to deny materials to projects it considers unessential, could block public works projects approved by congress.

In such a case, it would permit exercise of a virtual veto power to halt action on one project approved by congress while permitting another project contained in the same legislation to go ahead.

VIERECK IS FREE UNDER  
BAIL BOND OF \$14,000

New York, Oct. 9.—(P)—George Sylvester Viereck, 56-year-old German born journalist, was free under bail of \$15,000 today pending his appearance in federal court in Washington tomorrow to plead to a five-count indictment charging him with failure to disclose material facts in registering as a representative of a foreign government.

In Boston, today, Dr. Claudius Murchison, president of the Cotton Textile Institute, expressed mystification over the accusation in the Viereck indictment that the journalist had used Dr. Murchison's name, among others, in sending articles to newspapers for publication.

DO YOU LIKE  
GRAPE JELLY?

**Try this excellent recipe**

For jelly making, concord grapes are best. All blue grapes, however, are NOT concord. Be sure you get concord when you ask for concord because other grapes take a different recipe.

Wash and crush about 3½ lbs., fully ripe grapes. Add 1½ cups water and simmer, covered 19 minutes. Squeeze out juice. For concord juice use the following proportions:

- 5 cups concord juice
- 1 package M.C.P. Pectin
- 7 level cups sugar

For juice from other varieties of grapes use these proportions:

- 5½ cups lemon juice
- 1 package M.C.P. Pectin
- 4½ cups sugar

Measure juice (and lemon juice) into 6 quart kettle. Stir in M.C.P. Pectin and heat to a full boil. Now add the sugar (previously measured). Bring back to a full boil and boil hard for 2 minutes. Remove from fire, skim and pour into sterilized glasses and seal with new paraffin.

You can use dissolved M.C.P. Powdered lemon juice, M.C.P. Lemon Juice or lemon juice in the recipe BUT BE SURE TO USE LEMON JUICE when using other varieties of grapes than concord.

nal western market were prohibited, they said, the supply would tax storage facilities here and might force some of the refineries to close.

Frey said he had already recommended that shipments of aviation gasoline and other non-motor fuel grades to Ohio be allowed to continue.

According to the Oil City Derrick the committee which made the recommendations, was headed by H. A. Logan, of the United Refining Company, Warren, who was asked by Dr. Frey to select a committee made up of region refiners and representatives of the major companies whose marketing operations were also affected by the order. That order, issued by Donald M. Nelson, director of priorities, of the office of production management, set up limitations on the amount of gasoline to be sold within the states of District 1 and also forbade shipment of gasoline from the region into any other area because of the shortage in District 1. Region refiners protested that the order would sharply reduce their gasoline sales, might result in loss of contacts built up over a period of years and might eventually cut in to the production of vitally needed lubricants.

A number of region refiners last week asked for and received exemptions from the order to permit them to make arrangements to meet the situation created by the order. They were granted exemption until October 15, but their shipments are limited to the same amount shipped previously. The Pittsburgh meeting was called to permit them to state their views on the order.

The following committee was named by Mr. Logan: W. R. Reitz, of the Quaker State Oil Refining Corp.; R. A. Brown, of the Pennzoil Co.; A. W. Scott, of the Wolf's Head Refining Co.; H. J. Dunmire, of the Valvoline Oil Co.; Butler, W. L. McDowney, of the Gulf Refining Co.; Pittsburgh; E. A. Holbein, of the Standard Oil Co., of Pennsylvania; and C. J. Skidmore, of the Socony-Vacuum Oil Co.

The companies and those who spoke for them included: United Refining Co., Warren, H. A. Logan; Pennsylvania Refining Co., Titusville and Karns City, M. H. Hindman; Pennzoil Co., R. A. Brown; Quaker State Oil Refining Corp., Farmers' Valley, Oil City, Emblenton and St. Mary's, W. Va.; Wolf's Head Refining Co., Oil City.

### RESOURCES FOR FIRE FIGHTING ARE IMPORTANT

Fire Prevention Week is a good time to review the great fire protection resources of the nation, the Chief D. G. Kropp believes. The local visible facilities consist of the fire department with its fire alarm system, water supply and personnel. But in support of these local resources is a group of somewhat coordinated organizations, national in scope, concerned with the same problems—fire prevention and fire protection.

"Leaders in the technical phase of fire fighting are the chiefs themselves with their state, district and national associations, the National Fire Protection Association, the State fire marshals, fire insurance associations, and the special bureaus and offices of the federal departments," explained. "All of them are concentrating this week in giving the Prevention Week genuine meaning for all of the people."

"There are, too, the testing and training bureaus, the Underwriters' Laboratories, Inc., with which the consumer is familiar, and the factory Mutual Laboratories, more familiar to industry. These organizations test fire extinguishers and their fire protection equipment, electric wiring, and appliances of any kind, and grant labels of approval to those meeting their standards."

According to Chief D. G. Kropp, these organizations and associations are also engaged in perfecting the fire defense of the country as a necessary part of civil protection. They have loaned technical men to the Army and Navy. In emergency training schools they are furnishing teachers on subjects related to fire defense. They are

FALSE CARD FAILS TO MISLEAD PLAYER, CONTRACT DEFEATED

BY WILLIAM E. MCKENNEY

cooperating with communities in special problems arising from shifts of population caused by defense industries.

### For Consistent Quality "SALADA" TEA

America's Finer Tea

Miss Farmer and Mrs. Staudt had a nice clear-cut victory over a large field. They play their cards right down the middle and are careful not to be diverted by false-carding on the part of their opponents.

In today's hand, declarer won the opening lead with the queen of clubs, hoping to create the impression that she had no lower winners and thereby induce a club continuation. She led the spade, and Miss Farmer, sitting East, won the king with the ace.

She saw that the play of the queen of clubs must be a false-card, unless declarer held the ace-king-queen. Else Mrs. Staudt would have had a combination from which the correct lead is an honor. At all events, the club suit was a broken reed, so she led a diamond and the contract was defeated.

It is instructive to note what happened at another table, where the club was returned by East on the third trick. West won, and could not guess that the diamond lead away from her tenace was necessary. She led a spade, the queen won, and declarer cashed the king and ace of hearts and led a third round. Now she had nine tricks in sight, and the defenders could win only two spades, a heart and a club.

FINE PLAY NEEDED TO MAKE THIS SIX DIAMOND CONTRACT

By WILLIAM E. MCKENNEY  
America's Card Authority

Here is one of the most interesting hands I have found this year. The wonderful thing about tournament bridge is that you don't have to win the championship to get a lot of fun out of the game. If you give a "bottom" to one of the experts or make a play such as Richard Kaplan of Asheville, N. C., did in his hand, you really have something that makes you feel good.

Let's consider the bidding. South doubled five diamonds and six diamonds, therefore he is pretty well marked with the diamond king. North doubled four spades, which more or less marks him with the spade king.

Young Richard Kaplan, a coming champion, was the declarer. He told me that it took him a

long time to study this hand. With the East cards, he decided that the only way he could make the hand would be to fool his opponents. So he carefully ruffed the king of hearts with the eight of diamonds, then played the queen of spades. When South played low, he went right up with the ace and led back the deuce of spades.

You can see North's predicament. He figured that Kaplan had no more spades, and if he put up his king, he thought it would be trumped. So more or less correctly, he played a small spade and East won the trick with the nine spot.

Of course East's contract still isn't made unless he can find South with just the king and one diamond. At this point Kaplan led the deuce of diamonds and South had to play his king.

A heart was returned and Kaplan ruffed with the nine of diamonds. Now he entered dummy by leading the diamond four and overtook with the seven spot. He led the six of spades and ruffed with the ten of diamonds. The king fell, and declarer's two low clubs were discarded on the jack and ten of spades. With this line of play, the contract was made.

# RED JACKETS LUCKY TO TIE ALIQUIPPA TRIBE AT CORRY

## INDIANS OUTPLAYED, BUT NOT OUTSMARTED; RAGGED PLAY IN LINE HANDCUFFS LOCAL PROS

Meeting up with a surprisingly tough Aliquippa eleven, the Warren Red Jackets were forced to come from behind in the fourth quarter last night at Corry in gaining a 7-7 draw with the Indians before nearly 1,000 spectators cheering for the Pittsburgh suburban to use the dope and best the favored local crew.

With blinding speed and backfield power combining with a powerful line that opened large gaps in the Aliquippa line, the Indians gained the jump on the western Pennsylvania champions to score in the first quarter, and the visitors held their lead up until the closing minutes of the final period.

A thirty-five yard pass started things for the Aliquippa gridironers from Galup to Burman on the Warren forty yard line midway in the opening quarter, and though they were forced to punt out on the Warren to shortly thereafter, took advantage of the first of a flock of local umbrellas on the Warren 28, three plays later, and mixed a fifty running attack with one accurate pass to get to the Warren three yard line.

At this point Manton hit the center of the line for two yards, and Kermit knitted his way through right tackle for the touchdown. A pass, Galup to Kermit, converted the extra point.

The Jackets came roaring back time and again, building up a late total of first downs and yardage game, but each time until the fourth period were halted by the scrappy Indians.

In the second period Warren drove to the nine yard line where Warnie Check tossed four successive passes, only to have them knocked down by one of the most capable pass defenders, secondaries seen in this section in many a moon.

In the last session, Aliquippa was forced to punt and the ball rolled out of bounds on their own 37 yard line. Check hit the line for 7 yards. Brown added ten and a first down. Martines, Check and Brown picked up ten more and another first on the Aliquippa ten yard line, and three plays later Frankie Martines slipped through right tackle to score from the eight yard line, after Rosequist had advanced the pigskin two yards.

"Rosy" bouted the point to knot the score and a minute later Martines intercepted a pass on the Aliquippa 34 yard line, giving the locals another chance to score. Line plays with Check, Brown and Martines doing most of the toting, carried the ball to the fifteen, where Rosequist pounded the center for eight yards and a first down on the seven. Check added two, Brown one, and "Rosy" three in a series of line plays, but the latter grider was stopped dead at the one yard line on fourth down giving the Indians the ball. They punted out directly and Brown took the kick on the Aliquippa 40, returning to the 32. A pass, Check to Martines put the ball on the sixteen yard line, but at a bad angle, and here Rosequist tried a placement for field goal but it went way to the left of the posts.

Aliquippa tried one line play as the game ended.

**Dom DiMaggio Has Law Suit On Hands**

Los Angeles, Oct. 8.—(P.)—Dominic DiMaggio, Boston Red Sox baseball player, has been sued for \$11,500 damages by Joseph W. Rodgers, Long Beach Oil Supply Company executive, for injuries he charges he received at an exhibition baseball game at Wrigley Field here last October. Rodgers alleged he suffered concussion and other injuries when DiMaggio's bat slipped from his hand and flew into the grandstand.

In 1940 the weekly purchasing power of the motor factory worker attained an all-time high level, and his actual weekly wages \$34.20—also was the best in automotive industry.

## WALKIE-TALKIE COACHING PLAN TO BE TESTED

Fort Lewis, Wash., Oct. 8.—(P.)—"Calling Coach Tuttle! Calling Coach Tuttle! Pull Hank Smith out of left guard! He's been letting too many men through! That is all."

The Army's new technique in radio communication has reached the football field and if the idea spreads you can be on the look-out for plenty of complications. The experiment will be made Sunday, for the first time on any gridiron, when coaches of the Army's 41st Division football team try out "Walkie-talkie" radio sets during a game between the soldiers and the Boeing Aircraft team of Seattle.

The plan is this: Lieut. Loren W. Tuttle, head coach, will pace up and down the side lines with a walkie-talkie strapped to his back. Assistant Coach John Haeckel will perch on the roof of the press box with another portable set.

From his vantage point, Haeckel, former Oregon State and Detroit Lions star, will try to spot plays and openings not discernible to Tuttle down on the field.

Coaches Tuttle and Haeckel will have no difficulty procuring the necessary equipment, seeing as how the 41st Division uses 100 or more of the portable sets on field maneuvers. The two-way voice set weighs about twenty pounds and hangs on the back like a knapsack.

Football authorities were approached on the legality of the idea. They haven't as yet been able to find any rules covering such activities by coaches and assistant coaches—so long as they don't talk by radio to the players on the field.

If the plan works successfully, the Army players said they saw no reason why other teams couldn't take up the practice.

Plenty of air interference was foreseen if the practice increased. Some fellows with an old spark coil and 10 feet of wire could simply paralyze the communications system of the visiting team.

### PLAY FOR PAY BOYS WILL BE PLAYING FOR NOTHING SOON IF FANS DON'T GET THE BRIAND OF FOOTBALL, THEY DESERVE

Red Jacket fans are probably still wondering today what happened to their favorite sons last night at Loveland Park and the answer to that isn't too far from home—it was weak line play that cost them a victory and the local pros were mighty fortunate to end up with another stalemate. The Jackets need several things to be good this year, but the outstanding necessities are a hard charging line, even if they have to pick out the seven best men and let them play the entire game, a better pass offensive, which means that "Warnie" Check can't be rushed off his feet every time he drops back to wheel one and the ends must get out into the open where he can throw a counter, and last but not least, A LITTLE FIGHTING SPIRIT. We've had it brought to mind by hosts of fans and even a few gents connected from the squad that this year's team is out there for the money. One man, who has been connected with football in this community for eighteen years, terms the local crew the laziest outfit he's ever seen operating as professionals. Well, they'll have to perk up, that's all, or there won't be any money much longer. Sunday, they have a real game against the Beaver Valley Giants, and the club will either have to prove they're good once and all in the eyes of the dissatisfied fans, or soon they'll find there aren't any fans. Now is as good a time as any to bring this out, and so now you see just this in print. Everyone has been waiting patiently long enough, now it's up to the Warren Red Jackets, champions of semi-pro ball in western Pennsylvania.

Well, Jamestown has had plenty of opportunity to scout Warren this year, the Dragons having already played six games to the Jamestowners' one, but they won't really know, or realize, what Warren really has until the Moon charges get in there against the Dragons Saturday. According to Stuart Maure, sports editor on the new Post-Journal, the odds are 4-5 down here and also on the hilltop with Warren on the short end. Brother, that's news to us—will you tell us where you pick up those prices? The closest to that which we can find down here is even money and you don't have to walk around the entire town to find the Dragons occasional 5-3 favorites in their coming war with the Jamestown lads. Most bets are running along the path of spotting six points and betting on Warren, even money. According to the witeup of the Dunkirk game in the Post-Journal Jamestown outweighted their opponents 11 lbs to a man, yet only edged them 7-0, and first downs were 11-15. Most of the play was centered between the two twenty yard lines, which shows how badly the Maroon clad team was beaten, regardless of such backs as Pete Wilson and Glenn Strong, or linemen like Don Haglund, or any one of the three Johnsons, Frank, Ken and Richard, who are to be found in the home-sters' starting lineup Saturday.

Quickies... The crowd for the Warren-Jamestown game this year should exceed 3,000 easily and probably will be around 4,000... Everybody is pepped up. What with both schools boasting that their teams this year are the best in recent grid history at the two respective schools... This writer forecasts right now that the score won't be very high, due mainly to the fact that both teams have tight defenses, mainly in their forward wall... Neither team is overwhelming in the air, but both can throw a few decent and important aerials when they're needed by... By the way, the main play will center around the ground... By the way, if you live through Saturday's contest at Jamestown, don't forget that the Redskins will have their title out on the block again when Beaver Valley comes here on Sunday... Invite the Jamestown "cousins" of ours... There will be no game here a week from Sunday because the western Pennsylvania champs will trek to Akron where they stand a very good chance of getting their teeth bashed in by the strong Akron Avings... Akron won't come here because they see no reason for leaving the gold mine to pick up peanuts... In other words, what they draw at a performance in Akron, is more than the locals can pick up in two games... And Akron has won 25 in a row including last Sunday's 33-0 win over Pace... Cheerful to think about, isn't it?

BY RUGH FULLERTON, JR.

New York, Oct. 9.—(The Special News Service)—Here are some guys who ought to sympathize with Mickey Owen and the Dodgers... Forrest Main, a pitcher for Idaho Falls in the Pioneer League, had a no-hitter against Boise with two out in the ninth when Jack Radtke bounced an easy one and Shelly McConnell, the second sacker, fell down trying to make the throw... The scorer finally had to call it a hit.

Up in Minnesota the Delano and Nowthen teams were rained out in an amateur league playoff game. They heard there was a dry field ten miles away, so players, crowd and all drove over. The field was almost flooded but the fans pitched in and helped drain it, then just after the game started a cloudburst came along.

West coast reporters here for the series spent a lot of time quizzing the southerners about Duke after the Blue Devils knocked off Tennessee. They'd like to see Wallace. (Turn to Page Fourteen)

Seattle, Oct. 9.—(P.)—Football teams which most experts picked to clean up this season are doing all right in the early statistics. The American Football Statistician's Bureau's first compilations released today, showed southern and midwestern outfits topping the figures for total offense and defense.

It's still pretty early to tell how indicative the figures are, however, inasmuch as some of the leaders have played only one game, or have not reported all games played. On offenses, Northwestern, after its thorough 51-3 whipping of Kansas State, holds first place with a 521-yard average for the one game.

Defensively, its Georgia, which in two games against Mercer and South Carolina held the foe to only 115 yards per game. Georgia also ranks third in total offense—gains, rushing and passing—rolling up an average of 438.5 yards per game. In a second place, with but one of its two games reported, is Frank Leahy's Notre Dame Irish, who collected a 461-yard average in their Arizona opener.

Northwestern also ranks first in rushing offense, averaging 389 yards per game on the ground. Georgia, on the other hand, has held opponent rushers to a minus 54 yards per game.

The Texas Aggies, hitherto a power team, have turned to passing since All-American John Kimbrough graduated, the figures indicate. The Aggies have averaged 243.5 yards per game through the air in their two contests.

St. Louis University has shown the best defense against passing, holding opponents' throws to 8 yards per game in two games. Illinois, in its lone game, averaged 45 yards per punt for four points to lead in that classification.

After Northwestern, Notre Dame and Georgia, here are the other total offensive rankings: Illinois, 327 yds. average gain per game; Texas A. and M., 327; Syracuse, 326.5; Detroit, 327.5; Tulane, 326.5; Santa Clara, 329; Ohio State, 335.

Total defense... after Georgia comes Texas, 25 yards yielded per game to both rushes and passes; Tulane, 31.5; Northwestern, 32; Illinois, 37; Vanderbilt, 41.5; Texas A. and M., 50.4; Texas Christian, 63; Duquesne, 61; Rice, 61.

Taxes on motor trucks will total \$475,000,000 in 1941, according to present estimates. This is more than double the \$237,750,000 collected from trucks in 1931.

## LOCAL BOWLING RED AND GREEN PINNING HOPES ASSOCIATION ON FAST BACKFIELD AND HARI CHARGING LINE TO BEAT WARREN

An organization meeting of the Warren Bowling Association was held at the Elks club last evening when officers were elected, reports received and plans discussed for the season, which promises to be one of the best that Warren bowlers have yet experienced.

Ed C. Lowrey was re-elected president and Mel Johnson secretary-treasurer. Vice presidents elected were Ray Weigel, of the Elks league, and Bernard Joy, of the Commercial circuit.

A tentative discussion was held on the question of attempting to have a banquet for bowlers affiliated with the A. B. C. in Warren and vicinity. Further information on the subject will be provided as soon as the details are worked out.

A number of communications from the A. B. C. were read by the secretary, followed by general discussions.

Every record of the season was broken at the Elks last night as the Leading Knights belted the pins, some a mighty clip, others at a lesser pace, but high single game, three games, team game and team total records were smashed.

Barney Malone smacked out a 244 game to go over the 223 mark set up by L. Rapp earlier this season. He also hit a 627 set to replace Rapp's 560 count.

Pileggi Grocery hit off a single game of 832, topping the record formerly held by Simonsens, 811. And Lewis Market took over high team total honors from Geracimos with a 2420 count to 2365, the former high.

The Newell Press took four points last night to rise up into a three way tie for first place with Penn Furnace and Natl. Transit. The Transit split and the furnacemen took three.

At the Arcade Harry Wooster hit 241 and a set of 669, both new records. The Plate Floor claimed new team game laurels with 915, and Foremen A hit off 2578 for high team total so far, all in the Struthers-Wells League.

The period required for cleaning out an over-choked engine by turning the engine over with the starter and with the ignition turned off is usually about 25 seconds.

One good reason for Warren's 19-0 shell

## BORO COUNCIL HOLDS MEETING AT YOUNGSVILLE

Youngsville, Oct. 9.—The regular meeting of the Youngsville borough council was held Monday evening with all members present. Routine business took up most of the evening. Clean-up days were set for Youngsville borough on Friday and Saturday, Oct. 17-18. On these days the Borough trucks will be out to gather up rubbish and carry it away.

A report was made about the Youngsville sewer and disposal system which is now already for operation as soon as the inspectors make their official inspection of the plant.

The new sidewalks being constructed about town to replace those taken up for the laying of the new sewer are being put in as fast as possible and are making the streets in fine shape.

There was some discussion of other items but action was postponed until a later date.

## JAMESTOWN RIDERS

Seven riders from Jamestown, N. J., rode their horses here Saturday afternoon and spent the night in Youngsville. The group was met at Chancellors Valley by a group of riders from Youngsville and vicinity, so that on the last part of the trip there were sixteen riders in the party.

Several riders from Youngsville accompanied the Jamestown group to Chancellors Valley on their return ride Sunday afternoon. Owing to the rain the party of riders from Youngsville was not as large as it would have been had the weather been favorable.

## FIRE PREVENTION

Youngsville schools are now observing "Fire Prevention Week." All pupils of the school are making an inspection of their own homes and bringing back a report of conditions. The object is to see if the homes of the community can be made as free as possible of fire hazards. Fire drills have been held this week in the school and it has been found possible to entirely empty the building of pupils in one minute and thirty seconds.

Friday at assembly there will be talks and discussion of fire prevention and what to do in case of fire danger. One feature will be brought out in regard to hazards of fire in the local school building. The plan of the building will be discussed and emergency plans made for emptying the building by fire drill in case certain exits could not be used, so as to lessen the danger of any persons being trapped in the building in the case of fire.

The officers of the Eastern Star organization entertained Tuesday evening at the home of Mrs. Alice Streeter in honor of Mrs. Edna Henning Johnson.

Bridge and Chinese checkers were enjoyed with awards made to Mrs. L. L. Johnson in bridge and Mrs. Mervin Kay in checkers. Mrs. Johnson was showered with lovely gifts. As a means of some real fun the ladies present exchanged white elephant gifts.

## SUNDAY SCHOOL BOARD

At the meeting of the Methodist church school board, held in the form of a luncheon dinner with the committee Mrs. Gustafson, Miss Bittle and Miss Knapp this week, plans were discussed for the coming year's work. All pupils and former pupils of the S. S. are urged to be present next Sunday at ten a. m. After a short class session the annual Rally Day program will be held beginning at 10:30 p. m. and continuing as a unified service into the morning worship period when addresses by members of the Gideon organization will be heard.

Before the Duke game Billie Gold, Vol. back, claimed he'd rather play Duke than the frosh. . . When Major Suede Larson, the navy coach, found his players too much on edge just before they opened the season against William and Mary, he bought the fondest plaid vest he could find and wore it into the dressing room. Just before the game, Suede said: "Now boys, let's take our coats off and get down to business." And unveiled the sartorial masterpiece. The boys laughed so hard they forgot about being nervous.

## Plan Adopted for the Y.W.C.A. Emancipation Drive Announced

General Chairman Conarro of the Y. W. C. A. Emancipation Campaign gave out some interesting information this morning regarding the plan to be followed next week for the various meetings of the volunteer soliciting organization. There will be but one dinner meeting, that of the "Kick Off" on Monday evening at 6:15 o'clock. The report meetings, the first of which will be on Wednesday evening, are scheduled for between 8:30 and 9:00 o'clock. Light refreshments will be served. The plan—new in Warren but used successfully in other cities—has two advantages. It enables the team members to interview prospective givers early in the evening before other engagements take them from their homes and it cuts down materially the cost of the campaign. At a meeting of the division managers and captains of the Women's section the plan was discussed and met with practically unanimous approval. The arrangement of the tables on the report night will be the same as at the opening dinner meeting. As the workers gather they will make up their report envelopes, coffee and sandwiches or doughnuts being served in the meantime. The reports will then be called for and tabulated on the big black board. A sufficiently large organization has been built up to enable the solicitors to work in pairs without requiring any to interview more than a limited number of prospects. The second and third report meetings will be on Thursday and Friday evenings.

## POLITICAL FORUM

Articles appearing in this department are submitted by representatives of the various political parties in Warren county and are not intended to reflect the views or opinions of the publisher.

### REPUBLICAN

Harrisburg, Oct. 9.—Pennsylvania's Young Republican State Chairman Frank C. Hilton, Wyoming, today announced U. S. Congressman Joseph J. O'Brien, (R. N. Y.), as the featured speaker Saturday, October 11, at the Western Regional Conference in Erie. Congressman O'Brien, in demand for his speaking ability will make his first public appearance in this state at the Young Republican affair. He is considered one of the outstanding humorists of the New York and New England as well as a statesman of ability.

Living at present in East Rochester, New York, the congressman is now but 44 years of age. He attended the Rochester public schools, graduated from St. Peter and Paul school and the Cathedral high school. He attended St. Jerome's College at Kitchener, Ontario, Canada, and McGill University, at Montreal.

He has been connected with several transportation systems, including the New York Central railroad. He was superintendent of construction at East Rochester, the village treasurer and assessor, and served in the U. S. Navy during World War I, for two years. He was an amateur and professional football player and a wrestler. He was elected to Congress in 1938.

Congressman O'Brien will fly from Washington to Erie, specifically for the Young Republican Conference, and will en train immediately after his address for his home in East Rochester.

### DEMOCRATIC

Col. William Kaub, of St. Marys, was host to a gathering of Democrats representing six northwestern Pennsylvania counties at his estate on Trout Run, near St. Marys, Wednesday.

U. S. Senator Joseph F. Guffey was the honored guest of the day. He was accompanied by Paul Lewis, secretary of the Democratic state committee.

The following party representatives were present at the gathering: J. D. Landers, state committeeman, and D. R. Hoover, county committeeman, both of Forest county; Henry Satterwhite, McKean county chairman; Mrs. Beatty, vice chairman; J. Lockhart, county chairman, and Mr. Miller, state committeeman, of Clarion county; John Brecht, state committeeman and county commissioner, Venango county; Mrs. Jerome's College at Kitchener, Ontario, Canada, and McGill University, at Montreal.

A number of those present advocated the endorsement of F. Clair Ross as the 1942 Democratic gubernatorial candidate, according to reports.

A Spanish adobe house, built in San Francisco in 1776, has been remodeled for an army officers' club.

## LEAVES

In April they are green, And so throughout the summer. But just before a storm, They have a silvery sheen.

And as the lovely summer sped, We think of winter yet to face.

But wait! Have we forgotten the leaves?

The yellow, brown and the red? Then pale and wan they turn, As from life it's all they have drawn.

We love them green, also red, But we care naught for leaves so brown. That silently drift upon our lawn.

But do not fret, and do not worry, We are here for just that purpose. Just give us a call, and we will hurry.

Let us prepare your shrubs for the coming winter.

## GOOD TEETH AND GOOD HEALTH FOR SCHOOL CHILDREN

A well balanced diet is the first assurance of the development of well shaped, firmly rooted, strong teeth and healthy bodies. And milk is the chief food-beverage contributing to good health. Milk at every meal, every day, is "just what the doctor ordered"; especially if it's our creamy rich, pasteurized milk. At your grocers or delivered to your door.
